

src/test/java/proj
/selekcjanatur/SymulacjaTest.java

```
graph TD; A["src/test/java/proj  
/selekcjanatur/SymulacjaTest.java"] --> B["org.junit.jupiter.api.Test"]; A --> C["org.junit.jupiter.api.Assertions.*"]
```

The diagram illustrates a mapping from a source file to two Java classes. A top box contains the file path 'src/test/java/proj /selekcjanatur/SymulacjaTest.java'. Two blue arrows point from this box to two bottom boxes. The left bottom box contains 'org.junit.jupiter.api.Test' and the right bottom box contains 'org.junit.jupiter.api.Assertions.*'.

org.junit.jupiter.api.Test

org.junit.jupiter.api.Assertions.*
